

# WHAT A WILD STORY, MINIMONI!

Rocio Bonilla

Once upon a time, long, long ago, there was a land of good people.  
They lived in peace, worked the land and tended to their flocks.  
The king ruled over them kindly and wisely.

However, one fine day – or one fateful day, perhaps we should say – there  
appeared a fearsome beast.

That huge, ferocious dragon demanded that they give him one of their livestock every day to satisfy his bottomless stomach.

If they didn't oblige, he threatened to eat all the people and destroy the castle with the fire that flowed from his jaws.
